## Customer Reviews

This book is amazing. Cheeseman does a great job of explaining complicated concepts of law to people who aren't part of the law profession. He never tries to confuse you or use a bunch of unexplained terms, he goes out of his way to really break down topics and discuss them. HIGHLY recommended for any Business Law course.

It was ok except i needed a code that was not included in the book.

case studies was easier to understand

This book is great for intro students learning about law. The author clarifies what others make complex and provides various examples.
