# Mastering Tort Law (Carolina Academic Press Mastering)

## Synopsis

Mastering Tort Law is a succinct, practical guide to the intricacies of tort law. Functional in approach, it describes and illustrates basic tort doctrine, and provides students insights into more advanced tort theories. In an attempt to facilitate student learning, the book includes a Roadmap at the beginning of each chapter, and a Checklist at the end. The authors previously published a well-regarded casebook in the area, and have taught torts for many years. This book is part of the Carolina Academic Press Mastering Series edited by Russell L. Weaver, University of Louisville School of Law.

Best Sellers Rank: #219,197 in Books (See Top 100 in Books) #56 in [Books > Law > Business > Torts](#) #1440 in [Books > Textbooks > Law](#)

## Customer Reviews

I used this book for my Torts 2 class in Law School. It was by far the most helpful supplement I have used. This book explains the law and how it operates rather than list the information in an outline format. This format really helped me to understand what I was reading and not just memorize it. I would greatly recommend to anyone who is looking for a good torts supplement. I would most definitely buy this book again!

This book was a lifesaver for reviewing before my final; however, I used the casebook written by these authors, and one of the authors was my professor. I don't know how helpful it would be to other users.

first, a caveat, one of the authors of this book is also the author of my text book and my professor.

so i figured i had a pretty good chance of learning what he thought was important by reading this. it is concise, easy to understand and the organization helped me put things in a logical order. i read this at the end of the semester a few weeks before finals and only wish i had it since the beginning.

This edition would be better if it followed the style of Mastering Criminal Law, which had far more comprehensive and highlighted factors, tests and elements in the body of the text. Otherwise, this text covers the ground needed for a basic torts class in accessible prose.
