I purchased this for a friend--meant to be a tool to read before going through the actual steps of processing the divorce. Book was full of information and advice. As an outsider looking in, going though a divorce is beyond difficult, this little book can be read cover to cover as an educational tool prior to going to see any lawyer. Not all of the information will apply to you, but I'm a firm believer information leads to knowledge, and knowledge leads to power.

this book is a must for anyone in divorce, the alimony section is the best yet and ive read everything!

Not a bad choice. It's kinda wordy, and uses alot of legleaze, but it answered alot of questions, and got my Ex and I through with out a big $$$ attorney.
